

4-247 Hinge Pr01 180°

for nested door

Screw-on Hinges for aluminium profiles, lift-off.

- These hinges allow the linking of different profile widths. Parallel and perpendicular mounting of profiles is possible.
- The DIRAK tenon blocks fit into the recess at the back of the hinges and combine positioning, fastening and anti-rotation features.
- For application with non DIRAK tenon blocks or on flat surfaces (e.g. sheet metal, glass), the corresponding fastening blocks are available with a safety device preventing rotation.

Material:

- **Hinge Parts:**
zinc die, black or chrome plated
- **Pin:**
stainless steel
- **Tenon blocks and fastening blocks:**
zinc die, untreated

Version	groove width in profile	Tenon blocks	Fastening / Positioning blocks*	see page
(max. door thickness 3.2mm)	8mm	265-1001	265-1101	
(max. door thickness 3.2mm)	10mm	265-1002	265-1102	
for application on flat surfaces			265-1103	09.5
c) Fixing screws M6x12 DIN 7991				09.5
* for application with non DIRAK tenon blocks				09.5
