

1-068 Pull Latch Handle

The Pull Latch Handle is used by 19" engineering for locking insertions.

- The completely pre-assembled unit is fastened by a countersunk screw M4.
- LH and RH application.
- When inserting the plug-in unit the free running slam hook latches into the appropriate cutout and locks the plug-in unit with the frame.
- Drawing at the handle unlocks the plug-in unit and it can be pulled out by the handle.

Material:

- **Housing and handle:** zinc die, matt chrome plated.
- **Spring for insert:** spring steel
- **Hook:** sintered steel, zinc plated
