3D-INTELLICLAMP™ - UNIT CONNECTION SYSTEM

3D-Intelliclamp™ for connection of sections or units. The 3D-Intelliclamp™ will align separate units in X-, Y- and Z-axis as the through-bolt is tightened. Provides a solid connection with perfect alignment of surfaces. Mounting with rivets or screws.

Each 3D-Intelliclamp™ consists of two interlocking halves, through-bolt and nut.

MATERIAL:

Zinc die-cast, black coated or zinc plated.
Through-bolt and nut (M8): Steel, zinc plated.
