EXTERNAL FLUSH HINGE - 180° OPENING ANGLE

Flush mounted hinge for even or uneven door levels. Holes for countersunk M5-screws, and bushings to reduce friction when opening / closing. Door part and frame part are mounted separately, and the pin is locked when pushed in place, with a fixed polyamide clip to secure the assembly. Universal left and right mounting. Supplied unassembled.

MATERIAL:

Hinge parts: Zinc die-cast, chrome plated or black texture powder coated.

Pin: Stainless steel (303).

Bushing and clip: Glass fibre reinforced polyamide, (PA6), black.
