

SEALING PROFILES

Sealing profile of EPDM foam with self-adhesive backing, providing a good grip. Available as P- and D-profile.

The EPDM P-profile is also available for stapling to wooden frames (see table).

We can also offer P, O, and Omega-profiles from silicone, suitable for demanding environments as it has a lifespan of more than 10 years.

The silicone profile is glued using glass silicone.

The dust profile from polyurethane is self-adhesive and suitable for double glazed windows.

Products marked with * are available on request only.
