

FILLER PROFILES AND TOOLS

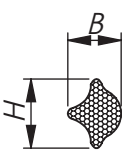

Filler profile for glazing profiles and tools for cutting and mounting our profiles and seals.

The filler profiles are used together with the glazing profiles on page 4-190. Choose matching sizes for a proper fit.

The Fitting tool kit (Photo A) contains everything you need for fast and reliable mounting of the glass seals listed below.

The Fitting tool (B) for attaching the filler profile can also be bought separately.

The Mitering scissors (C) have visual guides in increments of 15° to simplify cutting sealing profiles. The hardened steel blades enables you to cut regular seals as well as sealing profiles with steel wire cores - or steel strip cores.

FILLER PROFILES AND CUTTING TOOLS									
Drawing	P/N	Description	Colour	Material	Weight gram / m	Size	Coil size	B in mm	H in mm
	437019	Filler	Black	EPDM	28 g	2	50 m	6,0	7,0
	437021	Filler	Black	EPDM	50 g	3	50 m	7,5	9,5
	437080	Filler	Black	EPDM	18 g	1	50 m	4,5	5,5
	437085	Filler	Black	PVC	40 g	3	100 m	7,5	9,5
	437086	Filler	Ivory	PVC	40 g	3	100 m	7,5	9,5
	437087	Filler	Silver	PVC	40 g	3	100 m	7,5	9,5
	437088	Filler	Red	PVC	40 g	3	100 m	7,5	9,5
	437089	Filler	White	PVC	40 g	3	100 m	7,5	9,5
